FUNERAL DIRECTOR'S DECLARATION

CONSTRUCTION OF THE COFFIN The coffin must be made of wood or a wood by product which, when placed in a cremator and subjected to the accepted cremation processes, is easily combustible and does not emit smoke, give off toxic gas or leave any retardant smears or drips after final combustion. No metal furniture or fittings whatever shall be used on a coffin for cremation. No metal of any kind shall be used in the manufacture of such coffin except as necessary for its safe construction and then only metal of a high ferrous content. Cross pieces must not be attached to the bottom of the coffin. If it is desired to strengthen the bottom of the coffin, wooden strips may be placed lengthwise for this purpose. The coffin must not be painted or varnished but may be covered with a suitable cloth. Products manufactured in polyvinyl chloride (PVC), melamine, polyamidoneepichlorhydrin based resins (PAAE), lead and zinc must not be used in the construction of the coffin or its furnishings. The use of Polystyrene must be restricted to the coffin nameplate only in which case it must not exceed 90 grams in weight.

LINING OF THE COFFIN The use of sawdust or cotton-wool must be avoided. If circumstances require, suitable sealing material may be used, but no metal, rubber or polyvinyl chloride (PVC) will be permitted and on no account must pitch or similar substance be used.

SIZE OF COFFIN If the coffin or casket is at or over 30" wide, 20" deep and 70" long, enter dimensions below. Maximum permissible size: 41" wide, 28" deep and 90" long.

CLOTHING AND CONTENT In order to minimise the release of pollutants to air, it is recommended that clothing should be of natural fibres and that shoes or any material manufactured from PVC should not be included. Body adornments from copper should be removed as should any easily removable prostheses or casts or material. Additional items, particularly of glass or plastic, should not be placed within the coffin.

SERVICE DETAILS AND ENVIRONMENTAL POLICY

Services begin on the hour and their duration is 60 minutes. This includes 40 minutes in the chapel; 10 minutes to pay respects to the family and view the floral tributes; with a further 10 minutes allowed to clear the site.

The exception to this is the Personal Service which can begin either on the hour or half-hour and has a duration of 30 minutes. This includes 20 minutes in the chapel; 5 minutes to pay respects to the family and view the floral tributes; with a further 5 minutes to clear the site.

Service time slot will be advertised on our website unless box is ticked.

Any special instructions:

For example: Horse Drawn Carriages, Specialist Vehicles, Military Funeral Cortege, Themed Service, etc.

ENVIRONMENTAL POLICY Woodside Crematoria is committed to minimising its impact on the environment. To minimise the number of cremators in daily use there may be occasions when a cremation is not carried out on the same day as the service. However, cremations will always be carried out within 72 hours of the service taking place. If it is imperative that a cremation is carried out on the same day as the funeral, then a written request to this effect should be attached to this form.

If the service is to be recorded my signature also denotes that the Clergy/Service Leader's consent has been received.
