

# Always in my heart

A stunning, unique collection of beautiful home memorial products.

To cherish forever your loved one's memory

**M**emoria have produced a range of exclusive professionally crafted glass products. Each item is individually hand-made in the UK by highly skilled professional craftsmen. A small amount of cremated remains is carefully included in the glass moulding process to produce items that will stay with you forever.

This could hold a special place at home that will provide a personal reminder of a very special loved one. Our Robin, tea light holders or the Oeuf can sit comfortably anywhere in your home and give you a presence of your loved one that is irreplaceable.

**M**emoria have commissioned a hand-crafted keepsake bear to cherish your loved one's memory. Baker Bear has a secure chest pocket that discreetly houses a 3cm ceramic heart in which a small quantity of cremated remains is ingrained, resulting in a personalised memorial product.

Baker bear provides a unique opportunity to keep a small part of a special person close to you in your home or wherever you go in the future.

*"Those we love don't go away; they walk beside us every day. Unseen, unheard, but always near, still loved, still missed and very dear".*

Call your nearest Memoria site or visit [www.memoria.org.uk](http://www.memoria.org.uk) for details of how to purchase these special, uniquely personalised home memorials.

Those we love  
don't go away;  
they walk beside  
us every day
